Hello, everyone. Welcome to the November 2006 edition of the Radio HF Internet Newsletter. A big hello goes out to a number of new subscribers joining us for the first time this month. We haven't had any snow yet here in Montreal but it can't be far off!

We have another interesting batch of websites for you to browse through this month, including some sites dealing with search and rescue and emergency services.

We're coming up to the end of 2006 with next month's Newsletter featuring the annual collection of holiday related information. If you come across any interesting sites related to Christmas, New Year, etc., please take a moment to send them along for the year-end edition.

The Monthly Special Zone for November has sites dealing with Remembrance/Veterans Day, U.S. Thanksgiving, the Great American Smoke-Out and, believe it or not, peanut butter and turkeys!

THE MONTHLY SURVEY

LAST MONTH'S SURVEY

Who will be the next President of the United States of America?

I am really surprised at the lack of reaction to a simple, straight-forward such as this. Either our subscribers really don't care, or they are so confused by the task at hand that they just don't have an answer! We received a grand total of just 8 responses. Here they are:

Hilary Clinton 4 votes
Rudy Giuliani 2 votes
John McCain 1 vote
John Kerry 1 vote

THIS MONTH'S SURVEY

At least here in the Northern Hemisphere, winter is approaching. I'm not much of a winter person, so you won't find me out skiing, skating, snowboarding, etc. like all those Canadians you see in the travel brochures! Some of you, however, enjoy the winter months.

So, the question this month is "What is your favourite winter activity?" Note that it can be an indoor or outdoor activity, but it should be something that you don't do once winter is over.

Please send your response, by e-mail, to hfnewsletter@...

THE CONTRIBUTORS ZONE

Another light turnout of contributors again this month with just 5, besides myself. Winter is approaching. If you're spending more time indoors, with some of it at the computer, take a moment to send along a few of your favourite websites to share with others.

THE MONTHLY SPECIAL ZONE

VETERANS AFFAIRS CANADA A DAY OF REMEMBRANCE

http://www.vac-acc.gc.ca/remembers/sub.cfm?
source=history/other/remember

This site explains why, every year on November 11, Canadians pause in a silent moment of remembrance for the men and women who have served, and continue to serve during times of war, conflict and peace.

VETERANS DAY NOVEMBER 11

http://www1.va.gov/opa/vetsday/

The United States Department of Veterans Affairs website dedicated to Veterans Day, November 11.

THANKSGIVING

http://www.2020tech.com/thanks/

U.S. Thanksgiving is celebrated this year on November 23. From the Center for World Indigenous Studies, this site includes the Plymouth Thanksgiving story, text of the First Thanksgiving Proclamation from 1676, and more.

THE GREAT AMERICAN SMOKEOUT

http://www.cancer.org/docroot/PED/ped_10_4.asp

Every year, smokers across the nation take part in the American Cancer Society's Great American Smokeout by smoking less or quitting for the day on the third Thursday of November. The event challenges people to stop using tobacco and raises awareness of the many effective ways to quit for good.

PEANUT BUTTER LOVERS

http://www.peanutbutterlovers.com/

This web site is dedicated to all those who love peanut butter. Check out our favorite recipes or post your own in the recipe section, participate in our latest contest, find out how peanuts are grown and made into peanut butter, or see how peanut butter stacks up nutritionally. But first, you might want to make yourself a peanut butter sandwich. Our site has been known to induce serious peanut butter cravings!
This site is included to mark Peanut Butter Lover's Month.

ALL ABOUT BIRDS: WILD TURKEYS

http://www.birds.cornell.edu/AllAboutBirds/BirdGuide/Wild_Turkey.html

In honour of Thanksgiving, here is some information about the Wild Turkey. The Wild Turkey was a very important food animal to Native Americans, but it was eliminated from much of its range by the early 1900s. Introduction programs have successfully established it in most of its original range, and even into areas where it never occurred before.

RADIO H.F. PUBLICITY ZONE

NEW FROM YAESU
THE FT-2000 AMATEUR TRANSCEIVER

The FT-2000 provides a full 100 Watts of power output (AM: 25 W) on the 160-6 Meter Amateur bands. Superb continuous receive from 30 kHz to 60 MHz is provided. The receiver front-end includes VRF (Variable RF Tuning) preselector which works in conjunction with a bank of fixed bandpass filters. This provides a front-line defense against strong out of band signals. The result is improved dynamic range and a higher intercept point than other designs. The first IF roofing filters (3/6/15 kHz) increase dynamic range in crowded band conditions. Variable IF Width and IF Shift allow precise interference rejection, and the receiver DSP also includes an Auto-Notch, Manual Notch, Digital Noise Reduction, and a continuously-variable passband Contour control.

You can learn more about the Yaesu FT-2000 by visiting the following Yaesu page:

THE RADIO ST. HELENA PROJECT

http://www.sthelena.se/radioproject/

VIA Sheldon Harvey, Greenfield Park, Quebec

This is to remind everyone of the special Radio St. Helena shortwave transmission taking place on Saturday, November 4, 2006, just a few short days away. Join in with DXers around the world tracking down this special broadcast from the South Atlantic island of St. Helena.

RADIO SCANNER GUIDE

http://radio-scanner-guide.com/

VIA Matthew Hurst, Gainesville, Florida

This site contains a comprehensive reference of radio scanners organized into 6 categories by features and reception modes. For example, if someone needs a radio that can hear digital trunking systems, they may look under that category for radios that receive digital trunking. A chart tells readers which radio scanner category is appropriate for their listening needs.

DX CENTRAL

http://www.dx-central.com/

VIA Sheldon Harvey, Greenfield Park, Quebec

DX-Central DotCom was born in February, 1999. The site was a project to help me (Kelly, N0VD) find some amateur radio QSL information for some missing QSLs I was trying to confirm. After spending countless hours on the net "surfing" from site to site looking for various QSL managers, routes, direct addresses, etc., I thought it would an interesting project to gather information from many place and "warehouse" this information on a single website; the site being much like a library.

DX SUMMIT

http://oh2aq.kolumbus.com/dxs/

VIA Sheldon Harvey, Greenfield Park, Quebec

This is another excellent site for spotting rare DX contacts on the amateur radio bands. DX-Summit is built up and operated by the members of OH9W / OH2AQ Radio Club in Finland.

CANADIAN SIGNET STATION GANDER

http://www.jproc.ca/rrp/gander.html

VIA Jerry Proc, Toronto, Ontario

The last installment in the series about Canadian SIGINT stations, Past and Present, is now available for viewing. Canadian Forces Station Gander, because of its rich association with aviation, has the most complex history when compared to the other stations in the intelligence gathering network. Today, the station is still active and is remotely controlled from CFS Leitrim, just south of Ottawa.

CANADIAN COMMUNICATIONS CENTRES

http://www.jproc.ca/crypto/canadian_comm_center.html

VIA Jerry Proc, Toronto, Ontario

These vintage photos illustrate some of the equipment used to communicate with Canada's embassies and missions in various countries around the world under Foreign Affairs Canada. PLAY IT AGAIN SAM - The Lockhart Era 1956-1966 By Buck Arbuckle is imbedded part way down within document. The story outlines the early development of communications with Canadian foreign embassies.

THE MARCONI VETERANS ASSOCIATION

http://www.marconiveterans.com/

VIA Sheldon Harvey, Greenfield Park, Quebec

This site was established in February 2004 as an additional means of keeping all Marconi Veterans in touch with the events surrounding the Company.
For many years the main contact has been via the annual Newsletter, published at the beginning of each year, and the annual lunch that is held as near to Guglielmo Marconi's birthday on April 25 as convenient. The Marconi Veterans Association has members from all the companies in the Marconi Electronics Services Group (previously called GEC-Marconi Limited; The Marconi Company Limited; Marconi's

Wireless Telegraph Company Limited; Wireless Telegraph and Signal Company Limited). Most of the members are still resident in the UK but there is a significant number overseas and it is hoped that this website with its easy access from anywhere in the world will provide a useful source of information and contact.

FRIENDS OF THE C.R.C.

http://www.friendsofcrc.ca/

VIA Sheldon Harvey, Greenfield Park, Quebec

Established by the Communications Research Centre (CRC) in 1994, the Friends of CRC is an association of CRC alumni and others who have an ongoing interest in the well-being and public image of CRC, as well as in social and technical activities. As CRC employees retire, they can continue to be actively involved with the CRC through this association. In the interest of keeping its leading role within communications research and development, CRC encourages involvement that helps to maintain scientific, technical and corporate expertise. Friends of CRC plays a valuable role by facilitating access to the years of knowledge and experience accumulated by retired staff. The continued relationship with employees of CRC, as well as participation by non-CRC professional associates, is enabled by membership in the Friends of CRC association which assists CRC to maintain a link with its past history and achievements; allows continued involvement in CRC's special events; boosts CRC's presence in the communications research and development communities; and contributes to a national awareness of CRC and its missions.

DEMOCRATIC PEOPLE'S REPUBLIC OF KOREA

http://www.korea-dpr.com/

VIA Sheldon Harvey, Greenfield Park, Quebec

With North Korea being front and centre in the news for the last few weeks, I thought you might enjoy taking a look at the "official" website of the DPRK. It includes, as they say, information on tourism, politics, society, geography, and history from a North Korean perspective.

THE KOREAN CENTRAL NEWS AGENCY (KCNA)

http://www.kcna.co.jp/index-e.htm

VIA Sheldon Harvey, Greenfield Park, Quebec

The Korean Central News Agency is the state-run agency of the Democratic People's Republic of Korea.
It speaks for the Workers' Party of Korea and the DPRK government. It was founded on December 5, 1946. It is located in the capital city of Pyongyang. It has branches in provincial seats and in some foreign countries. News is transmitted to other countries in English, Russian, and Spanish. The KCNA is in charge of uniform delivery of news and other information to mass media of the country, including newspapers and radios. It develops the friendly and cooperative relations with foreign news agencies.

NATIONAL SEARCH AND RESCUE SECRETARIAT

https://www.nss.gc.ca/site/index_e.asp

VIA Sheldon Harvey, Greenfield Park, Quebec

The National Search and Rescue Secretariat (NSS) is an independent agency of government, reporting to the Lead Minister for Search and Rescue (the Minister of National Defence).The NSS was established in 1986 to support and promote the activities of the National Search and Rescue (SAR) Program (NSP) as a means to achieve highly effective and economically responsible search and rescue programs throughout Canada. It acts as a liaison for search and rescue agencies and all partners involved in Canadian search and rescue.

EMTEL-EMERGENCY TELECOMMUNICATIONS

http://www.emtel.etsi.org/home.htm

VIA Sheldon Harvey, Greenfield Park, Quebec

An emergency can be anything from everyday incidents like traffic accidents or assault, to major incidents like airplane crashes or forest fires, to major disasters such as earthquakes or large-scale terrorist attacks. Emergency Communications - EMTEL - addresses a broad spectrum of aspects related to the use of telecom services in emergency situations.
Both public and private services benefit from the EMTEL work. These include emergency call services, caller location enhanced emergency services, telemedicine, the car industry, and specific public safety communication systems - to mention but a few examples.

COMMUNITY EMERGENCY RESOURCE TEAMS SOCIETY OF BRITISH COLUMBIA

http://www.certbc.com

VIA Sheldon Harvey, Greenfield Park, Quebec

The Community Emergency Resource Teams Society of BC was founded in 1995 by active and former emergency response team members, as well as private citizens with specialized skills. CERTBC is an umbrella organization, offering the opportunity for members of various organizations to cross-train; an organization which offers a basic course to help people protect themselves and others in the event of a disaster; and a group of people with a common desire to help others and even occasionally have fun.

PANDEMIC INFLUENZA

http://www.influenza.gc.ca/index_e.html

VIA Sheldon Harvey, Greenfield Park, Quebec

The flu season is upon us again. In addition to the regular strains we run into each year, there is still continued talk about avian flu, etc. This site provides access to online information from several Government of Canada departments and agencies about pandemic influenza, avian flu, seasonal flu and related matters.

DAVIS MONTHAM AFB THE BONE YARD

http://www.maclean-nj.com/aircraft/dm/default.htm

VIA John Bigony, Arlington, Texas

Legends are made of places like this. On the outskirts of the city of Tucson, Arizona, this airbase has become the last resting place for most of the US inventory of aircraft. The B-52's that were scrapped as part of the START II treaty were dealt with here. Generations of aircraft have sat here in the sun, standing one final duty before succumbing to the axe.
